Sheep Health Rules and Requirements

All animals showing clinical signs of contagious, infectious, or parasitic diseases will not be admitted to any show or other fair event.

All drug and vaccine labels directions must be followed, including but not limited to milk and slaughter withdrawal periods. The vaccine must be administered at least 15 days prior to entry into the fair.

A movement record with a specific set of information needs to be included on the sales slip which travels with the sheep to any final destination-including slaughter. A copy of those records will need to be kept and retained for a period of 5 years to meet the requirements of the new federal scrapie rules.

Pennsylvania Sheep Requirements:

1. A Certificate of Veterinary Inspection (CVI) issued after May 1, 2024 is required.
2. All animals must be free of infectious and contagious diseases and a statement of this is required on the CVI (the statement is pre-printed on the CVI).
3. Individual official USDA scrapie animal identification is required. Official scrapie ID includes:
 - A USDA ear tag with a US shield  ; or
 - A legible tattoo with herd and individual identification recognized in an approved USDA Scrapie database a.k.a. scrapie tattoo (only for herds enrolled in the USDA Voluntary Scrapie Herd Certification Program); or
 - A breed registration tattoo if the animal is accompanied by a registration certificate and the tattoo is legible.
4. A current rabies vaccination administered by a licensed veterinarian is **recommended** for animals 3 months of age and older.

Out of State Sheep Requirements:

1. A Certificate of Veterinary Inspection (CVI) issued within the 60 days prior to entry into PA is required.
2. Vesicular Stomatitis (VS): (applies to states that experienced a Vesicular Stomatitis outbreak in the last 12 months). An accredited veterinarian shall determine whether the animals are free from VS, and animals shall be accompanied by a CVI with the following statement signed by the accredited veterinarian: "All animals identified on this certificate of veterinary inspection have been examined and found to be free from Vesicular Stomatitis (VS). During the past 90 days; these animals were not located within 10 miles of a site where VS has been diagnosed."
